A Warm Welcome

Creating a garden or patio that's a true extension of your home is made easy at Frank Key. As a leading independent provider of building supplies, landscaping and plant & tool hire, Frank Key are the number one choice for everything needed to create an elegant garden, a dynamic driveway and lay that perfect patio.

There are many ways to get outdoor inspiration from our latest Landscaping guide, top tips from our landscaping blogs, and our dedicated landscaping centre Patioworld located at Brookfield Garden Centre, Mapperley Plains.

As proud partners with Bradstone, Frank Key brings you the 2023 Bradstone range including the popular porcelain range Madera Antigua, Romeli, Stylus, Fiero and more. Porcelain gives you an elegant and hard wearing finish, transforming your outdoor space to a modern or contemporary style. Make sure your garden is ready for those summer BBQ's.

This guide also features other market-leading products to complete your landscaping project. From sustainable composite decking, low maintenance artificial grass, garden walling, cedar cladding, and modern stylish fencing. If your project requires additional plant or earth moving equipment – such as a mini-excavator, digger and dumpers – then our Plant & Tool Hire department are on-hand to help.

Don't forget to download our Skip App to help with the waste removal. In the unlikely event you do not find the product you want in this guide, our strong supplier relationship and knowledgeable staff will ensure Frank Key can source the right product for you on a short lead time, allowing you to continue with the dream project.

We hope to see you at your local branch in the near future.

What You Need. When You Need It.

Natural Limestone

Natural Limestone has a much flatter and less rugged surface. It is affected by UV light and can fade, however we have a range of complementary products to seal and enhance the colours.

Our Top Tips to Good Deck Building

1

Plan the deck carefully before commencing any construction work.

2

A scale drawing of the proposed deck and surroundings will help visualise the overall size and shape.

3

Materials stored on site before and during deck building should be protected from rain using a waterproof cover.

4

Spend time preparing the proposed site. Remove all vegetation, apply a proprietary weed killer and weed block.

5

Do not bridge the damp course or cover air bricks if fixing to the side of a house.

6

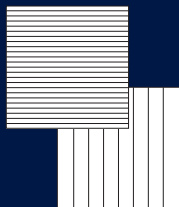

For decks over 600mm above ground level, consult a reputable builder or structural engineer.

7

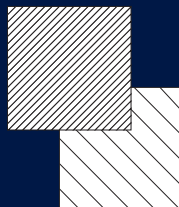

All cut ends and drilled holes must be treated with a suitable proprietary end coat.
